25.	
26.	
27.	
28.	
29.	
30.	

Give thought to how you felt about the School and the provision that has been outlined during your discussion. Weigh up the therapeutic provision and the academic provision – ensure they meet the needs of your child. No provision will be perfect, but certain areas will be more important to you and your child than others.

Score the Schools on all the areas that are important to you, if necessary, as this may help when you come to make the decision.

If you would like further support please contact us using the details below.
